

// THE ROMANDY CTO COMMUNITY

Where
technology
leaders *connect.*

// WHO IT'S FOR

Built for the people *building things.*

— CTOS • ENGINEERS • ARCHITECTS • FOUNDERS • PRODUCT • DESIGN • AI

— *anyone passionate about technology and leadership*

What we keep *coming back to.*

01 – Leadership

Technical Leadership

How to lead engineering teams through growth, change, and pressure – without losing the people you most want to keep.

02 – Systems

Architecture & Systems

What it actually takes to design systems that scale – technically and organizationally.

03 – Talent

Recruiting & Talent

Finding great engineers is hard. Keeping them is harder. Knowing when to let go is harder still.

04 – Tech

Leveraging Technology

AI, cloud, platforms – when to adopt early, when to wait, and how to build conviction either way.

05 – Teams

Building Teams

Culture, onboarding, rituals, remote vs in-person – the full picture of what makes a team perform.

06 – Strategy

Tech Strategy

Connecting technical decisions to business outcomes – and explaining them clearly to anyone in the room.

// HOW WE KEEP THE CONVERSATION GOING

A community with a *pulse*.

Events are where we meet.
Everything between them is where we grow.
